

The **Indian River County Metropolitan Planning Organization (MPO)** needs your ideas about countywide transportation issues that could potentially be addressed in future *transportation planning studies*.

Every two years, the MPO lists upcoming transportation planning tasks and studies in its **Unified Planning Work Program (UPWP)**. The next UPWP will be adopted in May of 2012 and will include tasks to be accomplished in the county between July 1, 2012 and June 30, 2014.

Think about your trip to work, school, medical appointments, or to the mall. Whether you go by car or bus, on a bike or on foot, what improvements would you suggest and where? Which systems work and which ones could work *better*?

Please call or submit your ideas via e-mail by Friday, February 3, 2012
